A Jain PharmaBiotech Report

A U T H O R ' S B I O G R A P H Y

Professor K. K. Jain is a neurologist/neurosurgeon by training and has been working in the biotechnology/biopharmaceuticals industry for several years. He received graduate training in both Europe and USA, has held academic positions in several countries and is a Fellow of the Faculty of Pharmaceutical Medicine of the Royal College of Physicians of UK. Currently he is a consultant at Jain PharmaBiotech. Prof. Jain's 473 publications include 28 books (5 as editor+ 23 as author) and 50 special reports, which have covered important areas in biotechnology, gene therapy and biopharmaceuticals. The following Jain PharmaBiotech reports are relevant to biomarkers: proteomics, molecular diagnostics, nanobiotechnology, and personalized medicine. Recent books include "Handbook of Nanomedicine" (Springer 2008, Chinese edition by Peking University Press 2011, 3rd ed 2017), "Textbook of Personalized Medicine" (Springer 2009; Japanese ed 2012; 2nd ed Springer 2015), "Handbook of Biomarkers" (Springer 2010; Chinese ed, Chemical Industry Press 2016, 2nd ed 2017), "Handbook of Neuroprotection" (Springer 2011), "Applications of Biotechnology in Cardiovascular Therapeutics" (Springer 2011), "Applications of Biotechnology in Neurology" (Springer 2013), and "Applications of Biotechnology in Oncology" (Springer 2014). He has also edited "Applied Neurogenomics" (Springer 2015).

TABLE OF CONTENTS

21. Markets for Biomarkers	4
Introduction.....	4
Biomarker markets according to technologies/applications	4
Markets for protein biomarkers	4
Biomarker market relevant to drug discovery and development	5
Biomarker market relevant to epigenetics	5
Biomarker market relevant to bioinformatics	5
Biomarker markets according to therapeutic areas.....	5
Markets for cancer biomarkers.....	6
Geographical distribution of biomarker markets	6
Drivers for the growth of markets for biomarkers	7
Biomarker patents	7
Factors that enhance the value of biomarker IP	7
US policy on patenting relevant to biomarkers	8
<i>US legal decisions on gene patenting</i>	<i>8</i>
Strategies for developing biomarker markets	10
Utilization of biomarker research in academic laboratories.....	10
Biomarker discovery at pharmaceutical companies	11
Industrial-academic collaborations in biomarkers	11
Future of biomarkers	12
Unfulfilled needs in biomarkers	12
Challenges facing the biomarker industry	12
Application of biomarkers in healthcare.....	13
Applications of biomarkers beyond healthcare	13
<i>Combating bioterrorism</i>	<i>14</i>
<i>Biomarkers for monitoring human exposure to environmental toxins</i>	<i>14</i>
22. Companies	16
Introduction.....	16
Top companies in biomarkers	24
Profiles of companies.....	25
Collaborations.....	383
