**A Jain PharmaBiotech Report**

## **A U T H O R ' S   B I O G R A P H Y**

Professor K. K. Jain is a neurologist/neurosurgeon by training and has been working in the biotechnology/biopharmaceuticals industry for several years. He received graduate training in both Europe and US, has held academic positions in several countries and is a Fellow of the Faculty of Pharmaceutical Medicine of the Royal College of Physicians of UK. Currently he is a consultant at Jain PharmaBiotech. Prof. Jain's 473 publications include 28 books (5 as editor + 23 as author) and 50 special reports, which have covered important areas in biotechnology, gene therapy and biopharmaceuticals.

In 1998, Prof. Jain wrote a Textbook of Gene Therapy, which was the first book on this subject to be translated into the Chinese language in 2000. A book on gene therapy companies was published in 2000 by John Wiley & Sons and continued to be updated online at Wiley's web site until 2003 and is currently incorporated in the report on gene therapy published by Jain PharmaBiotech and is regularly updated with latest edition in 2015. Prof. Jain has edited "Drug Delivery Systems" (1<sup>st</sup> ed Humana/Springer 2008, 2<sup>nd</sup> ed 2014) and Drug Delivery to the Central Nervous System (Humana/Springer 2010). His other recent books include "Handbook of Nanomedicine" (Humana/Springer 2008; Chinese edition, Peking University Press 2011, 2<sup>nd</sup> ed Springer 2012, 3<sup>rd</sup> ed 2017), "Textbook of Personalized Medicine" (Springer 2009; Japanese ed 2012; 2<sup>nd</sup> ed Springer, 2015), "Handbook of Biomarkers" (Springer 2010; Chinese edition, Chemical Industry Press 2016, 2<sup>nd</sup> ed Springer 2017), "Handbook of Neuroprotection" (Springer 2011), "Application of Biotechnology in Cardiovascular Therapeutics" (Springer 2011), "Application of Biotechnology in Neurology" (Springer 2013), and "Applications of Biotechnology in Oncology" (Springer, 2014). He has edited "Applied Neurogenomics" (Springer 2015).
